COW PALACE TO WELCOME 'FOUR TET' IN OCTOBER COLLABORATION WITH 'THE DO LAB'

Four Tet collaborates with *The Do Lab* -- creators of "Lightning in a Bottle Festival" and "The Do Lab Stage" at Coachella – to debut a new, immersive experience inside the iconic Cow Palace Arena on Halloween weekend with an open-to-close set from the prolific DJ/producer.

Paul Simpson of *AllMusic* called Four Tet "perhaps the definitive indie electronic artist", noting that his "experimental yet highly accessible recordings, which blend organic and electronic sounds, have earned widespread acclaim from critics and fans of electronic music as well as indie rock." His work has drawn influence from styles such as spiritual jazz, krautrock, folk music, and hip hop, and now he will be "playing the Palace" in a unique and unforgettable event.

"The Cow Palace is one of the major economic engines of northern San Mateo County and the south side of San Francisco," said Chris Corgas, President of the Cow Palace Board of Directors. "Events, like this, help boost our local economies and support nearby small businesses. Staff and board have been working diligently to ensure this iconic venue continues to be active with quality entertainment and community events."

General admission ticket tiers are: \$49.50 - \$59.50 - \$69.50. For pre-sale ticket registration and other ticketing information, visit www.iwannahotbox.com.

This event is produced by *The Do Lab*, *DJ Dials*, and *Hotbox*.

The Cow Palace is an historic entertainment venue in Daly City, and home of the Grand National Rodeo and Jr. Livestock Exhibition. www.cowpalace.com.
